Task 1

**Gail Mizzi
5.1A**

Funzee is a free online quiz game that can be played by multiple people at once.

It will provide different questions and topics according to the age group selected in the beginning, making this quiz suitable for any age (kids, 18+, teens, education).

Funzee is different from other quizzes as it consists of simple layouts for easy access, it is easy and simple to use, and accessible for any age. It also has bright, fun colours to attract any age and will consist of animations and interesting shapes for buttons, etc.. and will consist of sound effects when either pressing right or wrong answers.

It is quite similar to Kahoot, and I will be using some similar features like I would like to include some kind of dashboard or ranking with the scores.

Luke Gatt

**Age: 16
Student
Lives in Pembroke, Malta**

Bio: Student and studies Mathematics, lives with parents. Likes haning out with friends and family while going on picnics and camping.
